David Zabala

Email: davidzamaira2003@gmail.com

To whom it may concern,

My name is David Zabala, and I am writing to introduce myself and share some information about my academic background. I am currently studying Network Computer Systems Administration (ASIR, Administración de Sistemas Informáticos en Red), which I started in 2025 after completing the Microcomputer Systems and Networks programme (SMR) at Mikeldi Study Center in the Basque Country (2023–2025).

These studies have helped me develop teamwork and communication skills. I have also taken part in group projects, such as building a company website with HTML and CSS, and in lab work with Linux and Windows Server, virtualization, Docker, network segmentation with VLANs and pfSense, and scripting with Bash and Python.

I am very interested in gaining professional experience in systems and network administration, especially in deploying and maintaining servers, configuring and securing networks, and automating tasks. I am motivated to learn more and contribute to a dynamic work environment.

Thank you for considering my letter. Please feel free to contact me if you need more information.

Kind regards,
David Zabala
